SUMMARY

Full-Stack Developer specializing in React, Next.js, TypeScript, and Supabase. Experienced in building secure, database-driven web applications with responsive UI, server-side rendering, authentication systems, and API integration.

PROJECTS

Buenaviyahe May 2025 - Nov 2025

- Developed itinerary planning features using route optimization logic and map integration to generate efficient travel routes between tourist destinations.
- Assisted in integrating different system modules and validating overall system behavior.

equip Jan 2025 - March 2026

- Designed and developed the entire system end-to-end, from database schema and authentication to frontend UI and backend logic.
- Implemented role-based access control, secure authentication, and server-side authorization to prevent unauthorized data access.
- Developed a booking workflow system with conflict detection, approval pipelines, and role-based access control for managing equipment reservations.

SKILLS

- Languages
 - TypeScript, JavaScript, HTML5, CSS3
- Frontend
 - React, Next.js, Tailwind CSS, Vite
- Backend & Database
 - Supabase, PostgreSQL, Express.js, Edge Functions
- Tools
 - Git, Postman, Vercel, Github Pages, Jest

EXPERIENCE

- **FSUU - IDEA** Jan 2026 - May 2026
 - **Intern**
 - Designed, and validated a comprehensive robotics curriculum, ensuring pedagogical alignment across elementary, high school, and senior high school levels.

EDUCATION

Bachelor of Science in Computer Science Sept 2022 - May 2026

Father Saturnino Urios University

- Thesis on "Buenaviyahe".
- **Relevant Coursework:**
 - Software Engineering
 - Data Structures & Algorithms
 - AI/ML Modeling & Training
 - Web Design
